G6B25YR **Body-Solid Bi-Angular® Multi-Station Gym**

LIMITED EDITION

In celebration of Body-Solid's quarter of a century manufacturing in the fitness industry, we have developed a limited-edition premium 25th Anniversary G6B Home Gym, the G6B25YR. Already one of our most popular home gyms, we have added a number of premium upgrades including an all-new aluminum pulley package and clear-coated red and black paint.

The G6B25YR also features our patented Bi-Angular® converging press station as well as a chest, incline, shoulder press and leg developer station incorporating our friction-free SmoothGlide™ Bearing System among other great features.

- A 210lb selectorized weight stack (upgradable to 260 lbs)
- High-density, top grade DuraFirm back pads
- 2" x 3", 11-gauge mainframe construction
- Optional red steel weight stack: 210 or 260lbs

Easy-to-use, space-efficient and strong — the limited-edition premium 25th anniversary G6B25YR is simply one of the best home gyms on the market.

Floor Space Dimensions: 85"L x 50"W x 83.5"H
