BSGLPX

Powerline Leg Press for BSG10X

BSG10X
Powerline Home Gym

Excellent workouts, limited space, and quick assembly are just three of the features offered by the newest Powerline Home Gym. You don't need an engineering degree to put the BSG10X together. The gym comes 90% pre-assembled in one box. All of the high impact resistant nylon pulleys and 2200 lb. tensile strength steel cables have been hung and strung by the factory. No confusing diagrams to follow during this assembly, it is a simple 9-bolt process. You can be working out in as little as 30 minutes. The compact frame which is less than 4 feet wide and 6½ feet tall lets you install this gym anywhere.

Dimensions: 42"W x 70"L x 80"H
