Pro•Dual Vertical Press and Lat

The Body-Solid Pro•Dual Vertical Press and Lat Machine offers a space-saving no-cable-change design solution for your people to focus on their chest and upper body with additional emphasis on their triceps and shoulders.

Biomechanically designed for maximum chest concentration and outstanding muscle development, the versatile machine offers a single station footprint that delivers multiple functionality, including mid-row, shoulder press, lat pull-down and incline press. Multiple press handles provide users of all sizes with different grip angles to create variable exercises to concentrate on distinct areas of the chest and triceps.

Dimensions: 83"H x 83"L x 41"W

Special Features

- Commercial rated
- 2"x4" high-tensile strength steel, All 4-side welded Mainframe
- Double powder coat finish protects against scratching, chipping and peeling
- Nylon-coated, self-lubricating, aircraft-quality steel cables
- Fiberglass reinforced nylon pulleys with v-grooved channels
- Machine drilled weight plates to exact specifications and employ oversized nylon bushings for super-smooth operation
