G9S

Selectorized Multi-Station Gym

The G9S features a multi-function Press Arm Station for bench press, incline press, shoulder press and chest supported mid row exercises. The Perfect Pec™ Station with fully adjustable range of motion allows users to achieve deeper muscle penetration for faster, more defined results. The Leg Press/Calf Press Station operates on a 2 to 1 weight ratio giving the G9S the awesome capacity of a 420 lb. leg press!

Floor Space Dimensions: 89"L x 76"W x 83.5"H

Special Features

- Two weight stacks
- Traditional press bar is biomechanically designed for maximum chest concentration
- Leg developer station features the SmoothGlide Bearing System™ with biomechanically accurate pivot point and integrated CAM
- Self-aligning, contoured leg extension cuffs automatically adjust throughout the exercise movement
